Note:

This query is designed to report enrollment activity between like terms in separate academic years (i.e. Fall to Fall comparisons). - Duplicated headcount will count a student once for each term. - Unduplicated headcount will count a student only once for multiple terms. The total count of all categories above is based on a student's primary program. For example, if a student is declared in a GCC program other than Apprenticeship and it is his/her primary program, then they will be counted only once in their primary program. This will present different enrollment counts among this report and counts provided by the Assistant Director of Apprenticeship.
